ECBC Participates in BIO 2005 – DOD Biodefense Panel

Media Advisory No. 05-02

15 June 2005

PHILADELPHIA, PA – The U.S. Army Edgewood Chemical Biological Center (ECBC) will present new biodefense research and development approaches, details on the latest biotechnology programs and funding streams, and advanced concepts for defense biotechnology at the BIO 2005 Annual International Convention held here June 19 through June 22, 2005. The ECBC exhibit will be located in Booth 138 in the Maryland Pavilion of the Pennsylvania Convention Center.

Dedicated to fostering the transfer of technologies to support critical national interests, ECBC actively seeks opportunities to apply warfighter innovations to the war on terrorism and homeland defense. Center activities span the life-cycle of chemical and biological defense research and product development.

ECBC Technical Director, Joseph Zarzycki, will be among the institutional leaders of the Defense Department panel in a conference Breakout Session entitled Department of Defense Biodefense — Advanced Biotech Programs, 9:30 AM, Monday, June 20. He will be available from 11-12 that day for interviews.

For more information or to arrange an interview time, contact Joan Michel at joan.michel@us.army.mil 410.436.3610 or 410.652.3912 (mobile).
